

Paldoxen is scientifically formulated to act at your animal's natural energy site. Giving your animal:

MORE HORSEPOWER!

Paldoxen is an energy supplement targeted for horses to enhance energy directly at the cellular level. Rather than containing caffeine or other stimulants, **Paldoxen** contains PdL1, a novel combination of minerals, amino acids and vitamins designed to enhance aerobic cellular metabolism. Scientific studies have demonstrated an increase in the rate and efficiency of cellular energy production using **Paldoxen**. With only a small daily addition to their horses' feed or water, owners have noticed that their aging horses were revitalized in about a week, while younger horses saw more endurance and a quicker recovery from strenuous activity.

The mission of Alimental Science is to develop high-quality, responsible nutritional supplements based on scientific research and clinical evidence.

Rejuvenate your Horse
with a patented equine supplement

A safe and effective energy supplement , providing:

- **More Stamina**
- **More Endurance**
- **Shorter Recovery Time from Activity... in other words**

MORE HORSEPOWER!

What horse owners are saying about *Paldoxen*

Within a week of taking *Paldoxen* Heather noticed a difference in her 16 year old gelding Reno.

“He just wasn’t feeling good this year, so I was going to retire him from competition (barrel racing). And then, after about a week, he just all of a sudden seemed like he felt better. So, I got on him, and he was awesome!”

–Heather Shader of Saugerties, NY

(Jen D’Agostino; Rhinebeck, NY on “Tiffany” her 20 year old Welsh Pony) “Before she was more lethargic. When you would walk her, she’d kind of lag behind you instead of next to you. Now she has a little bit more peppiness –more liveliness in her life.” “She’s making me happy”.

(Kim Doebel; Accord, NY – on her 23 year old Arabian) “...about four or five days on the supplement, I noticed he was playing with my youngest horse out there, rearing in the air with them like he liked to do when he was younger... I was really surprised”.

***Paldoxen* acts at your animal’s natural energy site. It contains no steroids, hormones, caffeine or other stimulants.**

Supplement Facts:

Serving Size: 8 mL	
Servings per container: 15	
	Amount/Serving
Vitamin A acetate	4000 IU
Sodium	48 mg
Proprietary Blend *	96 mg
Other Ingredients:	
Alpha lipoic acid	
Palladium	
Thiamine hydrochloride	
N-acetyl cysteine	
Cyanocobalamin	
Molybdenum
